

**December 25  
11:30am**

**Sensory-Friendly  
Christmas Mass**

Sensory-Friendly Mass is perfect for any person who struggles with the crowds, noise, sights, and smells of the typical Christmas Mass. The sound is softer, the lighting is lower, and there are adaptive Missals available, but the biggest difference is that there isn't any stigma. Even if you or your child have struggles that make it more difficult to attend Mass, you are welcome and we want you there!
