Dear Parents,

We live in a world surrounded by technology. And we know that whatever field our students choose to go into as adults, their ability to succeed will increasingly depend on understanding how the technology works.

But only a tiny fraction of us are learning how technology works. Only 35% of all high schools teach computer science.

That’s why Bishop Leibold is joining in on the largest learning event in history: The Hour of Code, during Computer Science Education Week (December 3-9). More than 100 million students worldwide have already tried an Hour of Code. Our Hour of Code is making a statement that Bishop Leibold is ready to teach these foundational 21st-century skills. To continue bringing programming activities to your students, we want to make our Hour of Code event huge.

Please return to homeroom teacher:
